

"You have to dream before your dreams can come true." Dr. APJ Abdul Kalam

Career Guidance for the Youth of Bhopal

one day seminar on Career guidance was on 21 April 2015 organized at Pastoral Centre for the youth Bhopal by Vocation and Youth Commissions. The total number of Participants was ninety from twelve parishes of Bhopal archdiocese. Our Resource person Mr. Utkarsh along with his two of his team members motivated the young boys and girls introducing various jobs opportunities. His interaction with the youth was indeed inspirational. With his vast knowledge about career guidance he ignited the mind of the youth to choose in life what is acceptable to their mind.

He also emphasized that everyone should work hard and never take granted of anything that pertains to present study and to future life. There are many opportunities are available to the young

people but they do not approach them to be better in their life.

Fr. Mathew VC, the Vicar General of the Archdiocese of Bhopal also introduced to the youth about priesthood and Sisterhood and he invited them to join seminary and religious congregations to become priests and sisters to work for God and His people.

At the end of the seminar Fr. Alexander Jesudasan, the Youth Director of Bhopal Archdiocese motivated the youth with the word "Impossible" that is I.... am ... Possible. As the word has the hidden meaning that is "I am possible", all must say with conviction that it is possible to become good Catholic students as well as good citizens of India.
