

"Confidence and Hard work is the best medicine to kill the disease called failure. It will make you a successful person." Dr. APJ Abdul Kalam

enlightened us about the value of our vocation and the need for us to be at the service of all those who are in need. He appreciated the different congregations who take trouble to send the young sisters for this course and the positive changes that are seen in the participants after this transformative process of a God oriented journey. He also assured us His prayerful support.

At the end of the Holy Eucharist the Archbishop gave a special blessing for all the participants and prayed that they may continue to be an instrument in God's hands to be effective missionaries. Then two of the participants of ICJ programme thanked the Bishop, the co celebrants and the sisters who came from different communities. The young sisters were touched by the warm welcome and hospitality that they experienced from every one and expressed their gratitude to them.
